01 PROFILE

Strong in design and integration with intuitive problem-solving skills. Proficient in FULL STACK DEVELOPER ROLES. Passionate about implementing and launching new projects. Ability to translate business requirements into technical solutions. Looking to start the career as an entry-level software engineer with a reputed firm driven by technology

I'm a full stack developer with high knowledge of programming languages with great potentials. I possess excellent communication skills and multitasking strength. I believe in team effort and enjoy working with team members; yet, I am also an independent individual that can get work done on my own with little help
